**Subject:** New-Indy H2S measures

Good afternoon all,

I've updated the list of measure to reduce H2S with some of things that we learned on inspection. I've highlighted what I added. Anything else you can think to add? Denis and Kevin, did either of you get a timeline for the upsized carbon bed? I remember they put in a "capital procurement request" that they speculated would happen in January but the carbon bed may have been coming sooner.

Jason, when this is ready where would you like me to send it?

Thank you.
